Summary

I am an active student majoring in Information Engineering from the Bandung Technology of University with a passion for exploring the world of technology. Through previous internship and organizational experiences, I currently have Front-End Engineer With ReactJS Web Developer programming skills. Proficient in Git and Github version control, collaborate effectively within a team. Special skills in SEO, systems analysis and UI/UX design, databases and computer networks. This trip taught me a lot about teamwork, developing analytical & crisis thinking, leadership and being able to adapt quickly and be ready to learn new things.
